SUMMARY

Aspiring Data Analyst and M.Sc Data Science student with a strong foundation in Python, Machine Learning, and Data Analysis. Proven track record of managing administrative tasks efficiently and maintaining strict confidentiality. Strong organizational skills coupled with excellent communication abilities to coordinate office activities and facilitate smooth workflow.

EDUCATION

Master of Science

Jun 2025 – Present

Bishop Heber college

Department: Data Science

UP to Become Pursuing in CGPA: 8.28

Bachelor of Computer Application

Jun 2022 – May 2025

Srimad Andavan College

Department: Computer Science.

CGPA: 7.76

TECHNICAL SKILLS

- Programming language : Python , R , SQL
- Web Technologies : HTML , CSS
- Work Flow : Machine Learning
- Tools : Vs Code, Figma & GitHub

SOFT SKILLS

- Problem-Solving
- Time Management
- Team Work

CERTIFICATE

G-TEC Computer Education

- Language : Python

INTERNSHIP

AI & ML Intern – FrontierWox Tech Private Limited

Intern Performance Prediction System

- Developed a machine learning-based web application to predict intern performance using academic, attendance, and task completion data. The system analyzes intern activities and generates performance predictions to help organizations monitor and improve intern productivity.

PROJECTS

Credit Card Fraud Detection System

The Credit Card Fraud Detection System is a Machine Learning–based project designed to identify fraudulent credit card transactions automatically. The system analyzes transaction patterns and predicts whether a transaction is fraudulent or legitimate using classification algorithms.
